INTRODUCTORY MODULE TO CLINICAL HYPNOSIS

The Centre for Foundation Studies
in collaboration with
International College of Clinical Hypnosis
Practitioners (ICCHP Asia)

SYNOPSIS

The Centre for Foundation Studies of Wawasan Open University is offering this course in collaboration with trainers from the International College of Clinical Hypnosis Practitioners (ICCHP Asia). This introductory hypnotherapy training module introduces the participant to the principles and practice of hypnotherapy and is aimed at the beginner. Classes will be conducted via lectures, tutorials and practical training.

You can sign up now for the introductory course module and start your journey into hypnotherapy at Wawasan Open University, Penang.

Fee **RM3,000.00**

OBJECTIVES

Our introductory course module to clinical hypnotherapy is designed to offer you the greatest quality and flexibility in deciding if hypnotherapy training is right for you. Anyone thinking of learning hypnosis and clinical hypnotherapy will find this course module invaluable. By trying our introductory course module first, you will be able to make an informed decision before taking the practitioner training courses.

As a student hypnotherapist, you will learn a comprehensive range of hypnotherapy skills and techniques, underpinned by an understanding of psychology, psychotherapy and therapeutic hypnosis. You will build and develop your knowledge and skills throughout your learning. You will start by mastering the hypnotic process and then be introduced to a variety of therapeutic processes and their application, leading to understanding and applying hypnotherapy techniques.

TRAINERS

Trainers for the course are qualified practitioners from ICCHP Asia, who have access to the latest research in clinical and therapeutic hypnosis and provide safe, ethical and effective use of hypnotherapy. They include:

- Synthia Surin, a clinical hypnotherapist, psychotherapist, High performance coach and Regional Director ICCHP Asia.
- Dr. Gayathri Kumarasuriar, a psychiatrist and clinical hypnotherapist, senior lecturer and Medical Director ICCHP
- Dr. Mohammad Abdul Rahman, an Associate Professor in Psychiatry, Clinical hypnotherapist, senior lecturer and Medical Director ICCHP
- Thevi Sinnadurai, an empowerment coach, a clinical hypnotherapist, trainer and senior lecturer ICCHP.
- Jyothi Chelamcharla, a psychologist, trainer and clinical hypnotherapist and senior lecturer ICCHP.

CERTIFICATION

A certificate of completion will be issued to all participants who fulfil the criteria based on attendance (minimum 80%) and assessment (70%). The trainers will also assist participants to obtain additional certification for their professional development from the International College of Clinical Hypnosis Practitioners, UK.

ICCHP UK is a London-based independent private educational establishment which aims to deliver the highest quality blended learning and teaching programme in clinical hypnosis and clinical hypnotherapy to students around the world. Its hypnosis and hypnotherapy training courses are validated by the UK General Hypnotherapy Standards Council (GHSC). The ICCHP has also been chosen as the 'Best Hypnotherapy Course Provider 2020/2021' by the Greater London Enterprise Awards. The ICCHP are proud to have our practitioner courses approved by the British Psychological Society (BPS) for Continuing Professional Development (CPD).

COURSE NAME

Introductory Module to Clinical Hypnosis

Training Sessions:

- The training sessions are meticulously planned by the trainers and are designed in a manner geared towards the maximisation of efficiency.
- Your training will be conducted by the trainers over FOUR weekend sessions that will last from 10 am to 6 pm on EIGHT days and EIGHT hours of tutorials. Training sessions comprise both activities and lectures and real-time coaching.

This course can be a stand-alone training option for people seeking personal exploration or a journey towards an exciting new career.
